

New irrigation system for Golf Club Abridge / GB

History of Abridge Golf Club, special thanks to Geoff Smith, Course Manager Abridge Golf Club:

“Abridge Golf Club is an 18 hole complex set in the county of Essex. We are just over 50 years old and originally founded by Jewish Members.

We are a large site based on clay and are famous for our fast true Green's and 'Carpet like' Fairways! We have a large Driving Range and Practice Facilities.

We have held various National Tournaments. We are British Open Qualifying Golf Course having held the prestige event for 5 years from 2011 -2016 and look forward to welcoming the event back to our Course soon.

We are currently investing heavily in updating our Course and Clubhouse facilities. These investments include a Perrot Irrigation system , including Greens, Tees, Approaches and Fairways, installed by MJ Abbotts, and a 32,000 cubic meter Irrigation Lake.

We are also investing in drainage and Buggy paths for our front 9 holes over the next few years.

The Clubhouse is being modernized and finally we are improving our Practice facilities including a new short game area.

Our old Irrigation system was over 40 years old and failing dreadfully!

We looked at all the major Irrigation companies but chose Perrot for their quality of Manufacturing and personal service they offered us. We are really impressed with our system. This year we have had no rainfall since the beginning of May and our new system has certainly been tried and tested ! Everyone is talking about how good it is!”

Our Local partner: MJ Abbott Limited, Bratch Lane Dinton Salisbury, SP3 5EB WILTSHIRE
